Sterile Cleaning Products

Contec® offers Validated Sterile mopping products designed especially for pharmaceutical, biotech, and medical device manufacturing environments. Fully autoclavable hardware systems are available for all Contec mopping systems. See pages 4-5 for details. Validation reports are available upon request. For certificates of sterility, irradiation, or conformance, e-mail wipers@contecinc.com or visit our website, www.contecinc.com.

Our innovative sterile packaging features a peelable outer bag and linear tear inner bag with embossed lot numbers.

Edgeless® Mopping System S

Traditional, Enhanced Twisted Ribbed and Wide Ribbed Polyester tube mops

- Mop head is a continuous tube of 100% polyester knitted fabric looped to form tubular mop strands. Three styles:
 - Original Edgeless Mop:** traditional tube
 - Enhanced Ribbed Edgeless Mop:** unique ribbed, twisted strands are more sorbent; textured headband
 - Wide tube Edgeless Mop:** economical version of our original Edgeless mop; textured headband
- All mops are available sterilized by Gamma Radiation, and can be sterilized by ETO and steam (autoclave) sterilization methods. Validated sterile per the AAMI/ISO Guidelines to a 10⁻⁶ SAL. Certificates of sterility are available.
- Designed for semiconductor, pharmaceutical, biotech, and medical device industries for lab clean up and process area cleaning. Ideal for general purpose cleaning in ISO Class 3 as well as less critical environments. Compatible with a wide range of chemicals.

Handles and Buckets

- Telescoping stainless steel and anodized aluminum handles are compatible with all sizes of Contec's interchangeable mop head frames. Fully autoclavable. Available in two lengths: 16" (40 cm), extends to 30" (76 cm); 50" (127 cm), extends to 92" (234 cm). Use with Dynamate™ Edgeless® mop head frame.

Enhanced Ribbed Edgeless® Mop

Wide Tube Edgeless® Mop

Bucket Systems

A variety of compatible bucket systems are available for Contec® Edgeless® Mops. We recommend using a downpress wringer with insert for optimum performance. See pages 4-5 for more information.

TaxFre® Mop

Tack-cloth dry mop

Designed for dry mopping floors and walls, the TaxFre Mop utilizes the same low-residue pressure-sensitive material as TaxFre wipers. The large 23" x 5" (58.4 cm x 13 cm) tapered swivel head attached to a lightweight 8' (2.5 m) telescoping handle enables the operator to clean in hard to reach areas. All hardware is cleanroom compatible. The unique construction of the TaxFre mop head allows the use of multiple sheets that can easily be removed when contaminated, revealing a fresh sheet for continued cleaning. The TaxFre Mop is ideal to use when liquids are not recommended.

Part #	Description	Pieces/Bag	Bags/Case
TF-1228	12" x 28" (30.5 cm x 71 cm) Floor mop	50	4
UF211	23" x 5" (58.4 cm x 13 cm) Mop head w/ swivel attachment	1	•
WWP08	8' (2.5 m) Aluminum extension handle, 2 piece	1	•

Contec's TaxFre® Mop utilizes a lightweight 8' telescoping handle. This handle is compatible with our Wall WipR system pictured on page 4.

**VertiKlean® Sox
Mop head covers**

The VertiKlean® Sox is a removable cover designed to increase the durability of the VertiKlean® Mop when used on abrasive surfaces. Offered in sizes to fit all three VertiKlean mop heads, the mop head covers are available in Polynit or Quilttec fabric for added liquid retention. Validated sterile versions are now available for use in sterile core areas. See page 3 for part numbers.

Contec offers stainless steel single or multi-bucket systems that complete the VertiKlean Wall Washing system. See pages 4-5 for additional hardware options.

**VertiKlean®
Wall Washing System**

Lightweight polyester disposable mop head and hardware designed for vertical surfaces

- Developed for wet cleaning ceilings and walls in controlled environments. Ideal for reaching awkward corners and ceilings.
- Designed for one-time use, disposable mop heads are compatible with our 7", 12", 14" stainless steel mop head frames.
- Also available in 16 1/4" for use with 15 1/2" collapsing paddle mop frames. Easily functions with Perfex/TrueClean bucket and wringer.
- VertiKlean mop heads are comprised of polyester fabric laminated to clean ester foam which provides excellent abrasion resistance.
- Textured VertiKlean has a textured polyester face for those applications that require additional abrasion to improve particle removal from surface.
- Compatible with a wide range of chemicals. Ideal for application of disinfectants and cleaning solvents.
- Sterile VertiKlean mop heads are available in 3 sizes. Validated sterile with a 10⁻⁶ Sterility Assurance Level (SAL).
- VertiKlean mop head is free of any cellulosic contaminants and is compatible with gamma, ETO, and autoclavable sterilization.

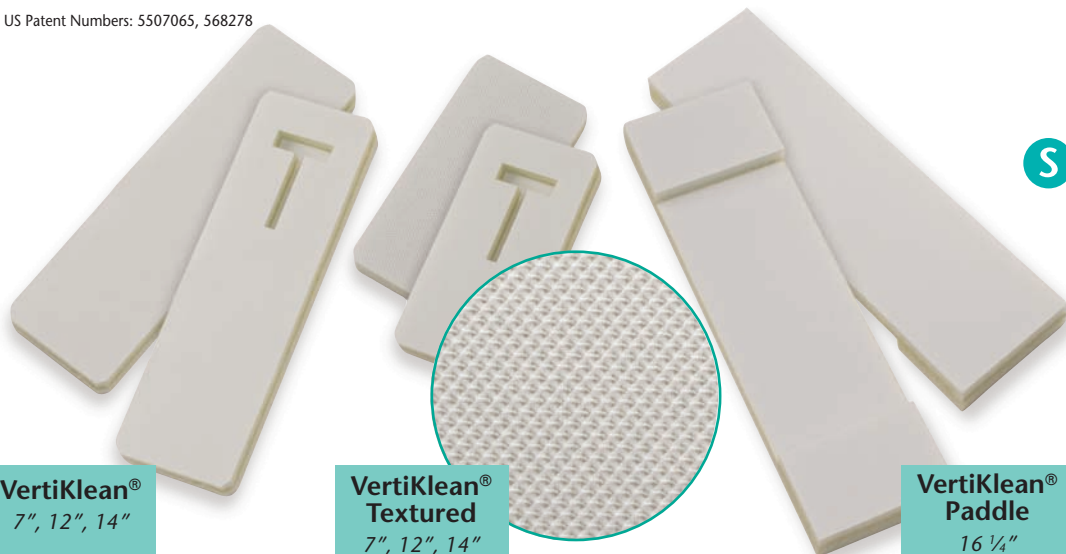

Hardware

- Lightweight, easy-to-manuever stainless steel swivel frame slips inside the mop head allowing a full range of motion.
- Mop head frames have a capped end and "quick connect" feature; available in 7", 12" and 14".
- Telescoping stainless steel and anodized aluminum handles are available in two lengths: 16"(40cm), extends to 30"(76cm); 50"(127cm) extends to 92"(234cm). Autoclavable.

VK Sponge

Absorbent, abrasion resistant sponge

The VK Sponge incorporates the same high sorbency of polyester foam with the abrasion resistance of Polynit fabric. The sponge is laser cut to completely seal the edges. The cleanroom sponge is designed for general cleaning and wiping and ideal for use in the laboratory. It is highly absorbent and abrasion resistant.

The VK Sponge is autoclavable and is also available as a sterile ready-to-use product.

Interchangeable Hardware

VertiKlean® mop heads work best with Contec's Interchangeable Hardware System. Stainless steel mop head frames have a capped end and "quick connect" feature that allows for easy attachment to compatible handles. Mop head frames are available in 7", 12" and 14". Telescoping stainless steel and anodized aluminum handles are available in two lengths: 16" (40 cm), extends to 30" (76 cm); 50" (127 cm) extends to 92" (234 cm). All pieces of the Interchangeable Hardware System are fully autoclavable.

Mop Key

Contec® offers bucket and wringers that complete our mopping and wall washing systems. The symbols below represent our mop heads. The color-coded squares appear beside the most compatible systems. Consult with your Contec representative for assistance in selecting the best mopping or wall washing system for your specific needs.

Autoclavable Plastic Bucket System

Fully autoclavable bucket, wringer, cart and casters

- Durable plastic bucket system is lightweight, easy-to-maneuver
- Fully autoclavable bucket, wringer, cart and casters ideal for sterile environments
- Each 8 gallon (30L) bucket is available in red and blue; color allows for differentiation between cleaning and rinsing solutions
- Single and double bucket systems are available

Part #	Description	Quantity/Each
2720	Plastic Double Bucket System, 2 8 gal. (30L) buckets, wringer, cart w/ casters	1
2721	Plastic Single Bucket System, 1 6.5 gal. (25L) bucket, wringer, cart w/ casters	1

Ultra Champ Bucket System
 9 gallon non-autoclavable plastic bucket system

- Durable, heavy-duty plastic bucket system is ideal for general purpose floor cleaning in less critical areas
- Capacity: 9 gallons (33L)
- Downpress wringer with basket insert maximizes wringing pressure and effectiveness
- Easy-glide casters allow for mobility

Wall WipR™ Cleaning System
 Polyester wall and ceiling mop

Contec's Wall WipR Cleaning System is an economical, effective and efficient cleaning system for vertical surfaces. Polyester fabric combined with a lightweight aluminum frame and handle offers wide surface coverage and low operator fatigue. The specially-designed fabric covers are low in extractable residues, and even lower in particle generation. Multiple covers are available for various applications. Convenient 14" (35.6 cm) or 18" (45.7 cm) width.

EliminatR[®] Sock & Pillow

Disposable cleanroom spill control products

Performance-engineered from 100% knitted polyester, EliminatR products have excellent sorbency for aqueous spills and superior holding ability for oils. Designed to be clean as well as sorbent, the EliminatR Sock and Pillow are suitable for use in Class 1000 or higher cleanroom environments. Outer covering is a durable two-ply polyester. Cellulose-free. Compatible with gamma, ETO and autoclave sterilization. Acid resistant. EliminatR Sock is 36" x 4" (91.5 cm x 10.2 cm). EliminatR Pillow measures 12" x 12" (30.5 cm x 30.5 cm). Both EliminatR products have a sorbent capacity of greater than 1 liter.
